AS PHONY AS

A THREE DOLLAR BILL

by

Eric P. Newman, LM 619

A smile always appears when a person says something is "as phony as a three dollar bill." The meaning of this widely used and colorful American slang phrase is well understood by the public but is somewhat disconcerting and puzzling to the numismatist. Those who collect coins or paper money have learned to be on guard at all times against a phony, but collectors also have mental reservations as to why a three dollar bill was selected as an example of a fake or fraud when many have seen or may have in their own collection genuine three dollar bills which were issued and circulated in the United States.

The origin of many American slang expressions is unknown or shrouded in doubt. "As phony as a three dollar bill" has several distinctions. The origin of the word *phony* is in doubt (the word *phony* is alternatively spelled *phoney*) and the reference to the "three dollar bill" has never been satisfactorily explained. A perusal of

slang dictionaries and etymological sources encourages one to make a fresh start on the matter and to assume that the small amount of prior comment is inoperative.

The use of the "three dollar bill reference in the expression, hopefully can first be satisfactorily explained.

The Three Dollar Bill

The earliest three dollar bills issued in America were normal denominations of the paper currency issued by the Continental Congress on behalf of the United Colonies or the United States from 1775 through 1779 (Fig. 1). During the American

Revolutionary War state paper money in \$3 denominations was also issued

by Georgia, Maryland, Massachusetts, New Hampshire, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina and Virginia.¹ After the adoption of the Constitution, the state incorporated banks generally issued their banknotes in such denominations as they deemed practical and many of them included the \$3 denomination (Figs. 2, 3 & 4). Although a few states prohibited any bills under \$5, there was never any specific restriction on the \$3 denomination as such.

As a result of the War of 1812, the United States Treasury Department created an issue of notes in 1815 in which the \$3 note was the lowest denomination (Fig. 5).² Counties, cities, business corporations and individuals joined the banks in issuing currency during the nineteenth century until the end of the Civil War and those issues are replete with \$3 bills. In every area of the United States the public was familiar with \$3 bills. Although the Confederate States of America did not issue notes of a \$3 denomination, some of its member states did (Fig. 6). By 1864 all issues of

paper currency by state banks, business corporations, and individuals were taxed out of existence by the Congressional Act of March 3, 1863. Paper money issues by any state or smaller governmental unit continued to be illegal under the Constitution even though this was occasionally ignored in emergencies. Thus all issuers of paper money except the United States or those acting pursuant to federal authority were eliminated after the Civil War.

The minting of \$3 gold coinage by the United States beginning in 1854 and ending in 1889 continued the use of the \$3 denomination in general circulation, but these coins could not have affected the \$3 bill expression.

Beginning in 1861 the United States had revived the issuance of its own paper money to finance the Union cause in the Civil War and this action had a strange relationship to the \$3 bill. The Act of July 17, 1861, authorizing United States Demand Notes, originally provided for \$10 as the lowest denomination, but by the Act of August 5, 1861, was amended to permit \$5 notes. No \$3 Demand Notes were, therefore, permitted in that issue. The first legal tender legislation approved February 25, 1862, authorized United States Notes in denominations not less than \$5 and accordingly greenbacks were issued bearing the date of March 10, 1862. As currency needs of the Union grew, the issuance of United States Notes was furthered by the Act of July 11, 1862, which provided for such denominations as the Secretary of the Treasury deemed expedient but not less than one dollar and without fractional parts of a dollar.

Thus, the Secretary of the Treasury had the discretion to issue a \$3 denomination of United States Notes. The first proof impressions of United States Notes lower than \$5 were prepared by the Treasury Department in Washington in denominations of \$1 and \$2 under Secretary Salmon P. Chase at the suggestion of Spencer M. Clark of the Treasury Department.

Each such design provided for a vignette covering the entire note face to defy counterfeiting, but this work was abandoned in partially finished condition when the engravers of the Treasury Department were said to have to give priority to other work. It was also decided to have the plate preparation and printing done under contract with the American Bank Note

Company and the National Bank Note Company.³

Trial proofs of a \$3 United States Note were prepared by the American Bank Note Company dated July 15, 1862 (Fig. 7). None were issued. No issued notes of any denomination bear that date. The prior issue with denominations of \$5 and over was dated March 10, 1862, and the \$1 and

Fig. 7: Proof face and back of unissued \$3 note dated July 15, 1862, printed by the American Bank Note Company in New York under Act of July 11, 1862. Four faces of this denomination in black and green are on one sheet and four backs in green on another.

Fig. 8: August 1, 1862, \$1 United States Note under July 11, 1862 Act

Fig. 9: August 1, 1862, \$2 United States Note under July 11, 1862 Act

\$2 denominations issued under the July 11, 1862 Act were dated August 1, 1862 (Figs. 8 & 9).

The trial proofs of the \$3 denomination were struck from a 4 subject plate of faces (plate letters A, B, C and D) and a 4 subject plate of backs. The text of their obligation conforms exactly to the language used on the faces of all March 10, 1862 United States Notes and to the text on the back of those notes of that issue which did not carry the bond conversion privilege (second reverse).⁴ Although the existence of a proof of the \$3 note was first mentioned in 1968 by William P. Donlon when he stated, "A proof specimen of the \$3 design of this series does exist," it was not pointed out that it was only a proof of the back which had been located.⁵ An illustration of a proof of the back was first published early in 1974 by Gene Hessler with the comment that "The face design has eluded me."⁶ The existence of the face proof and an illustration of it are revealed here for the first time. The style of the \$3 proofs is completely dissimilar to the issued notes dated August 1, 1862.

This would lead to the conclusion that the \$3 denomination was to be coordinated with higher denominations and was abandoned when a new style of low denomination note was developed.

These United States Notes in denominations of \$1 and \$2 with a new date (August 1, 1862) and text were prepared and selected for issuance. They were produced under a joint arrangement by the American Bank Note Company and the National Bank Note Company. Each of these notes contained a 1, 2 and 3 in a vertical row surrounded by a circle, the number corresponding to the denomination of the note having a white background while the other numbers in the row were overlaid with many green lines (Fig. 10). This was primarily an anti-alteration device rather than an anti-counterfeiting device. It was created to prevent a lower denomination from being raised to a higher denomination by merely pasting higher counters from an obsolete or worthless note over the existing counters, hoping that the incongruity

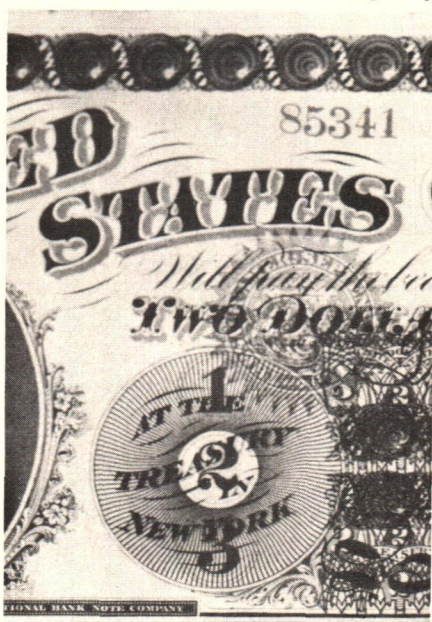

Fig. 10: Enlargement of anti-alteration device on \$1 and \$2 U. S. Notes of 1862 in Figs. 8 & 9

of the green geometrical lathe work would not be readily observed.

It is obvious from the existence of a 3 on these notes that a \$3 note was planned in similar style to the \$1 and \$2. No such \$3 was issued and no trial proof of it is known to have been made. That denomination was abandoned as shown by the following announcement in the Connecticut Bank Note List published in Hartford, Connecticut, for September, 1862.

The New U. S. Legal Tender Notes are now being forwarded to Washington. The \$1 notes have on the right end a single bar of lathe work. On the left end is a portrait of Secretary Chase. The \$2 notes have on the right end, between the signatures, two stripes of lathe work. In the right corner is a portrait of Alexander Hamilton. The \$3 notes have not been ordered.

When National Bank Notes were planned as a part of the National Banking System the first legislation of February 25, 1863, provided for no denomination below five dollars. In the second National Banking Act passed June 3, 1864, the Comptroller of the Currency was not only authorized but "required to cause plates to be engraved and notes to be printed in the denominations of one dollar, two dollars, three dollars, five dollars," This was not a discretionary decision as in the case of United States Notes but a requirement. Yet no \$3 National Bank Notes were ever issued and no trial proofs of any National Bank Note design of that denomination are known. All denominations of National Bank Notes under \$5 were to be discontinued when specie payments were resumed but that condition would not actually occur until 1879.

It is clear that the public readily noticed an anomaly. There was no \$3 bill of any type in circulation and yet the anti-alteration device on both the \$1 and \$2 United States Notes dated August 1, 1862, showed that a \$3 was intended. It is no wonder that this

situation might have given rise to curiosity, comment and ridicule. The \$1 and \$2 United States Notes dated August 1, 1862, remained in circulation in substantial quantity for over twenty-five years. Young people growing up after the Civil War had no knowledge of any \$3 bill in circulation and yet were faced with the strange phenomenon of the 3 in the anti-alteration device on the \$1 and \$2 notes of 1862 with which they could not help being familiar. To this group a satirical comment about a \$3 bill was only natural and they had every reason to joke about the non-existence of a genuine \$3 bill. To them any \$3 bill would have been queer, peculiar and false.

Evidence of this oddity came in the form of advertising material resembling what appeared to be a \$3 bill. Some of these money-size novelties had many features similar to both the \$5 U. S. Demand Notes of 1861 and the \$5

Fig. 11: \$3 advertising novelty of City of Paris Store in Chicago dated 1868 with vignettes copied from \$5 U. S. Notes

United States Notes of 1862 and 1863: Crawford's statue on the Capitol Dome on the left side, Alexander Hamilton's oval portrait on the right side, and green denominational overprint in the center, a red Treasury seal, pretended serial numbering and a green back (Figs. 11, 12, 13 & 14). The advertising note of the City of Paris One Dollar Store in Chicago was dated December 1, 1868. The Novelty Ad Publishing Company of Peoria, Illinois, printed a standard form bearing a legend, "Act of May 10, 1869," and leaving blank space for the advertiser to print in. The use of these forms by A. Johnson, Millinery of Bridgeton, New Jersey, is typical of the wide use of these \$3 handbills. True's Neatfoot Harness Oil Blacking of Rochester, New York, is similar and has the words "Copyrighted 1875" to indicate the date of its use. A \$3 advertising form of the Vorodyne Universal Pain and Ache Cure has a figure of Hope on the left

and Washington's portrait on the right along with the legend, "Act of Mar. 10th 1877" (Fig. 15). The dates of the "Acts" on these curiosities were naturally fictitious. However, the dates clearly indicate that the humorous appeal of these \$3 advertising novelties was well understood by the public beginning soon after the end of the Civil War. The novelty of the \$3 bill idea has never stopped.

Some numismatists have specialized in collecting only \$3 bills because of their unusual appeal.⁷ Business colleges which printed practice money for their students sometimes used the \$3 denomination as part of their series of notes.⁸

The Early Uses of Phony

The earliest known written use of the word *phony* (*phoney*) was by George Ade (1866-1944), the American humorist whose "Overlook all the Phoney Acting by the Little Lady, Bud" is in *Fables in Slang* (p. 138) published in Chicago in 1900. In *The New York Sun* of September 28, 1902, p. 8, a card shark said, "It wasn't any phony deal, at that, for I had the deck myself, and I don't fight cripples with knives. It would ha' been rubbin' it in to stack the cards against that outfit." Seven years later in the *Saturday Evening Post* of March 6, p. 38, the story included, "I gave the sucker my name and address (both phony of course)." In the *San Francisco Examiner* of July 10, 1909, p. 8, a writer used, "Rob my house in a phony disguise, eh?" and an excerpt of March 1, 1912, p. 17, read, "It's a kid, eh? — well I'll kid that phoney judge." "Um — he's going to be as popular as a phoney check around here." is in the *San Francisco Call & Post* of March 10, 1919, p. 13.⁹ These uses indicate that the American public was well accustomed to the expression *phony*, at least by the beginning of the twentieth century. Jimmie Durante, a master in coining words, asserted in an article in *The New Yorker Magazine* of July 26, 1943, "I ain't phoneying up them woids." Pleasure in using the

word phony seemed to spread its application. Phony monacker, phony tag or phony handle is a false name or nom de plume; a phony spark is a fake diamond; a phony mop is a wig; phony teeth are false; and phony money is counterfeit. Phoney baloney is a double emphasis of falsity which has been dignified by Latinization to *phonus balonus*. Today's broad use of phony as an adjective and as a noun is a steady continuation of its original usage.

The origin of the use is strictly American although it now has developed a limited reception in England. Its use in England was an import from America, principally adopted when Americans referred to the early inaction of World War II as a "phony war." The fact that George Ade's *Fables in Slang* was so popular that it was republished in England in 1902 had no effect on the British introduction of the word.

Theories of Origin

It has been strongly proposed that phony is derived from the English word *fawney* or *fauney* meaning a finger ring and derived from the Irish.¹⁰ A brass finger ring was used in a swindle wherein a person finds a purse on the street and the swindler claims that he also found the purse at the same time. The contents are examined and a brass ring which appears to be gold or is gold plated is in the purse. The swindler sells out his share of the find to the "finder" on the basis that the ring is gold. This trick was described in England as early as 1781 and was known as a *fawney rig*, by 1851 also as *fawney dropping* and by 1859 as *fawney bouncing*. A person performing the swindle is *on the fawney*. When used alone in England the word *fawney* had no deceptive significance except when used as relating to the *fawney rig*. Neither *fawney* or *fauney* has ever been included in American dictionaries. Its use in England and Ireland did not spread significantly to language in

America. The assertion that phony was derived from *fawney* is without evidence and requires a change of general sense as well as changes in spelling and pronunciation. Lexicographers have therefore been unwilling to accept such a derivation.

The invention of the telephone in the latter part of the nineteenth century has given rise to a suggestion that phony might be either based upon an imposter's voice used to deceive a listener or upon poor transmission of a voice which sounded like someone else's. These are contrived and without any basis of fact.

The current dictionaries take the position that the origin is unknown.

The Probable Origin of Phony

The adjective *funny* has two distinct meanings: (1) droll; comical; amusing; laughable; and (2) strange; queer; odd. The second meaning obviously developed from the first because of the humor which many people see in a deviation from the normal. In common parlance the two meanings are sometimes distinguished by referring to them as *funny* (ha ha) and *funny* (peculiar). It is not uncommon in slang to make slight variations in spelling and/or pronunciation to create a distinction in meaning. That in the writer's opinion is what seems to have happened to *funny* (queer) to become *phony*. The evidence is meager and could well be what a lexicographer had in mind when it was suggested by inference in a dictionary in 1909.

The expression *funny business* is the clue to the problem. The word *funny* when used in this combination no longer conforms to either normal meaning of *funny* — comical or queer. When one says there is *funny business* going on, it means that something tricky, fraudulent or dishonest is taking place. Such a secret activity or situation is intended to deceive and is spoken of in derision rather than disgust. This is identical to the meaning and use of *phony*.

Prior to 1909 no dictionary or thesaurus contained any reference to phony, phoney or funny business, particularly the edition of Webster's *International Dictionary of the English Language* published in 1890. These words all appeared for the first time in Webster's *New International Dictionary* published in 1909. Phony is defined as "not straight or genuine; crooked; fake (slang U.S.);" and the lexicographer suggests comparing it to funny business. Phoney is defined as "a variation of phony." Under the word funny the expression funny business is defined as "tricky, fraudulent, or dishonest business (slang U.S.)."

The fact that two new expressions, phony and funny business, were recognized as sufficiently in use in the American language at the same time, with the same meaning and with only slight variation in spelling and pronunciation cannot go unrecognized. While the spelling change from u to o leaves a different sound, the change from f to ph leaves the same sound.

It is not unusual in American slang to change the spelling and pronunciation of a word to introduce a change in meaning. The word *sundae* was developed to apply to ice cream served with a flavored topping to avoid an ordinance against serving ice cream sodas on Sunday. The *sundae*, without soda water, was not restricted on Sunday. The *sundae* was originally a *sunday* but not only was the spelling changed from y to e for written recognition but the pronunciation was changed from the sound of a in *ape* to the sound of u in *up*. The same type of change apparently took place in changing *funny* to *phony* as the pronunciation change of u to o distinguished the meaning of the spoken word and the spelling change distinguished the meaning of the written word. The choice in spelling between *phony* and *phoney* would indicate that the spoken word developed first.

The high standards of etymological proof in lexicography apparently caused the discard of the expression

funny business from its explanation of the word *phony* in the *Second New International Dictionary of the English Language* in 1934 both in defining *phony* and under *funny*. The origin of *phony* was classified as unknown. Thus it has remained. A change in position seems justified.

The Queer

There is nothing to indicate that counterfeit money entered into the derivation of the word *phony*, but there is a curious relationship to the word *queer*. One of the many names for counterfeit paper money in England and in the United States was *the queer*. This expression was used as early as 1846 and continued throughout the nineteenth century. A *queersman* or a *shover* of the *queer* was a dealer in or passer of counterfeit money.¹¹ A chapter in the book, *American Counterfeits* (Springfield, Mass., 1875; reprinted Boston, 1879) described a notorious counterfeiter and is entitled "Jake the Queersman." It could be asserted that as *funny* (*queer*) as a \$3 bill might have been the basis for the expression "as *phony* as a \$3 bill," but since *phony* was and is applied to everything, there seems to be no basis to claim it as having a numismatic beginning.

It might also be pointed out that another old expression for counterfeit paper money is *coney* and because it rhymes with *phony* or *phoney*, the expression might be "as *coney* as a \$3 bill."

With this as a starting point, perhaps some readers can furnish additional data on the problem as there are many who have steadily used the various expressions mentioned in this article for many decades.

PEACE MEDAL

The galleries of Nielsen-Porter, Inc., of Houston announce the issuance of a new work in medallion art . . . PEACE, designed by Nathan Sobel and sculpted by Joseph DiLorenzo.

The obverse brings together the word "peace" in virtually every written form that exists today, while the reverse portrays the dilemma of Abraham the Patriarch, through whose eyes are seen the modern day Jew and Arab as the descendants of his beloved sons Isaac and Ishmael. His plaintive smile betrays his deep longing for their reunification and their embrace signifies the beginning of peace in the Middle East.

Peace is issued in sets of two 2 1/2 inch .999 fine silver and bronze medals housed in a plush-lined desk-stand presentation case. Each are hallmarked and individually-numbered from 0001 through 1974. Once the total mintage is struck by Medallion Art Company of Danbury, MA., the dies will be destroyed. A message from the artist, personally hand autographed, will accompany each set. The issue price for PEACE has been set at \$250 as well as a special pre-issue price to sponsors and others who order during an initial ordering period. Additional information may be obtained by writing: Nielsen-Porter, Inc., Box 42228, Houston, TX 77042.

FROM YOUR PRESIDENT

VIRGINIA CULVER

A milestone in the numismatic world may well be history as you read this. For the first time in forty-one years US citizens may be able to buy, hold, and sell gold. When this eventuality becomes reality, it is certain to have a direct effect on the numismatic market and on you.

The C.O.I.N. Convention in Los Angeles in June brought together collectors whose interest lies outside the realm of our US coins and paper money. In particular, coinage of other countries, paper money of other countries, as well as tokens, medals and exonomia reigned supreme. Education was the keynote as each sponsoring organization held a forum with one or more speakers. Bourse business was reported as excellent and the auction brought unheralded prices.

It is my hope that each member of our association is doing his part to relieve any shortage of our US cents and will continue to do so. Telling uninformed friends is one important way to assist. None of us wish our hobby to carry the stigma of being responsible for US coin shortages or highly speculative prices for current issues.

Publisher Chester Krause's second "Day In the Country" in Iola was an ideal time to renew acquaintances with some Wisconsin friends in the hobby along with a few others from afar. As a Wisconsinite, I must tell you that Chet has an "in" with the weatherman as it was a gorgeous day (rarity), the chicken barbecue was superb (choice), the friendly atmosphere was very enjoyable (BU), but my golf game left much to be desired (severely pitted).

All of us with the American Numismatic Association look forward to greeting you in Miami, Florida, from August 13th through the 17th at our 83rd Anniversary Convention. We welcome you to enjoy the many activities that will be offered and we hope it will be a most enjoyable time for you. Numismatic friendships are indeed one of the nicest aspects of our hobby.

President Culver and Chester Krause, Krause Publications, prepare to sample some barbecued chicken at his second "Day in the Country" outing at Iola, Wisconsin.

"COMMEMORATIVE" DUCATS

There were **no** ducats or double ducats struck as commemoratives. Pieces sometimes advertised or listed as such are medals or jetons and nothing more. The only coin in the Russian gold series that is a commemorative is the Kolyvan issue of 1832, catalogued below.

SPECIAL NOTE

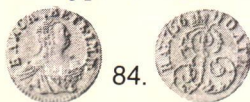

Novodels of the ducats and double ducats are often found with considerable variation in weight from the originals. No inference as to denomination or purpose should be drawn from these weights. A novodel of a ducat weighing, for example, 6.94 grams is *not* a double ducat. One presumes that the mint used thicker and heavier planchets to get a better strike. The gold may have been low-quality.

FEATURING FAKES

Thanks to Texas being far down the alphabet, my June issue of *The Numismatist* didn't arrive in Bellaire until June 15, too late to stop the presses and get this into the July issue; so I'll settle for August.

When in the June issue I read that "Die Stress Detection" article by my friend Hal Birt and Dick Wagner, I thought my eyesight suddenly had gone bad, or else that Authors Birt and Wagner had written a satire on counterfeit detection.

So I read the thing again!

Nope, they seemed serious . . . but 100% wrong!

Their entire unfortunate opus was but window dressing wrapped around just four or five statements which I shall quote verbatim.

Quoting their first erroneous statement:

"A 16-X hand lens is the most reliable and widely used method among numismatists to sort die-struck specimens from cast copies."

Folks, don't believe a word of that!!!!

The authors were in gross error . . . they've unthinkingly given very, very bum advice . . . when they wrote that a 16-X hand-held lens is the most reliable method for detection of a cast coin, and their error by now can have cost a lot of readers of that June article some hard-earned cash.

The authors also mistakenly wrote:

"No cast coin has ever shown signs of die-stress."

That statement is in error, but some collectors are going to show signs of stress if they find some fakes among the coins they've bought since swallowing that misinformation!

AND

Further they wrote:

"When die stress is present on a coin, no matter its textural appearance, the coin is not cast."

(By "die-stress" the authors no doubt meant the flow-lines caused when the moving metal flows beneath the not-highly-polished, hardened steel die during the striking operation. Flow-lines fan out from the center, more prominent as the rim is neared. Also they're seen where the metal of the coin-blank has flowed up into the recesses of the die which form the letters, numerals, and raised portions of the coin. If those flow-lines were caused by die-stress, as those authors believe, how come you have a mighty hard time seeing 'em on a proof coin, struck with at least an equal pressure, but with polished dies?)

THERE'D BE DANCING IN THE STREETS!

If everyone followed the advice of those two gentlemen, as they say, "The burden on Charles Hoskins and ANACS would be eased!"

In fact, Folks, if everyone followed their advice, ANACS' burden would be so eased that we could close up ANACS, sell all the testing equipment, and the ANACS staff could retire . . . and all the counterfeiters in this world would be dancing in the streets, their joy unconfined!

SEEING IS BELIEVING!

Folks, I've watched counterfeit coins being cast. And those fakes most certainly DID have flow-lines (or, as those authors call 'em, "die-stress").

In December '73, I attended a seminar on casting at Richland College in Dallas where I saw the latest casting techniques demonstrated.

On the last afternoon of that seminar, I, with my own hands, made a mold from a genuine Mexico "pillar dollar." That mold not only had flow-lines ("die-stress"), but also had an extremely sharp PLUS VLTRA, those so very tiny letters incused into the ribbons adorning the pillars.

Folks, when you see a mold made from powdered steel under heat and extreme pressure, and when the molten silver is rammed into that mold under ten thousand pounds pressure, you can bet your bottom peso that the cast counterfeit coin will have flow-lines, if the genuine coin, which was used as the pattern, had flow-lines.

And when you see an automatic casting machine which can cast 27 coins an hour, then, Folks, you'd better arm yourself with a top quality 30-X Nikon SM-5 or zoom stereoscopic microscope . . . and learn how to use it!

\$3 GOLD PIECES AT \$100.00!

When a man . . . touring the USA selling gold coins, sovereigns and USA gold, to a few dealers . . . can sell USA \$3 gold pieces in lots of 100 pieces at \$100 a coin, even though they all have flow-lines, you can bet your new Mercedes that the things are counterfeits. And they ARE being cast!

DON'T YOU BELIEVE IT!

In another part of their window-dressing, the authors say:

"If evidence of die stress exists on a coin, the piece is not a cast coin."

Don't you believe it!

In fairness to those authors of all that misinformation, I suspect their experience with cast coins has been with coins cast with "French sand" which was in use fifty and more years ago. Counterfeiters don't use that any more.

The Southeast Asian sharpies will jump with joy when they see that article in the June *Numismatist*, and I'll be surprised if that article isn't introduced by some defendant counterfeiter in some future trial in a federal court.

It's unfortunate that such an article was written.

And I stand by that statement!

Editor's Note — The article, "Die Stress Detection," that appeared in the June issue of **The Numismatist** has clearly created a stir in the field of counterfeit detection.

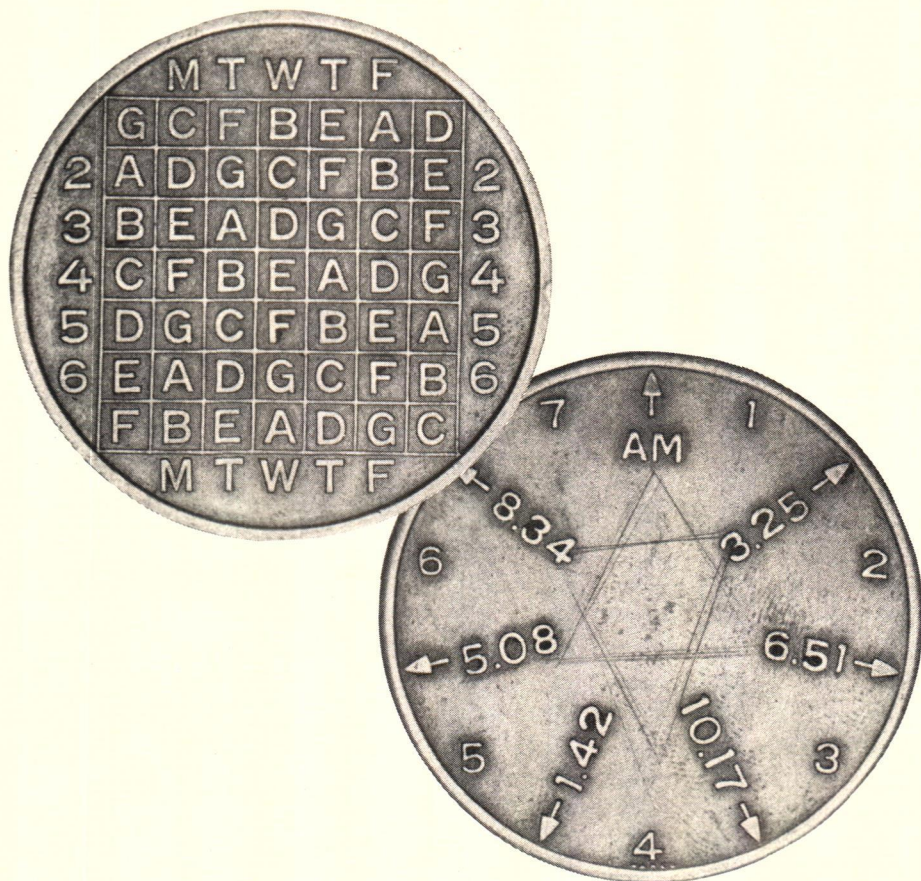

While the article deals with but one criterion for the detection of cast copies and is by far not the final word on the subject, the article has served an important purpose in focusing attention on the many problems facing collectors in regard to the detection of counterfeit coins. This view should serve as the beginning of a definitive series on a subject that many experts cannot agree on.

The other side of the coin is presented by Mr. Hancock in this issue and it is our intention to seek further articles and correspondence on the subject from those recognized as experts in the field. Correspondence and letters to the editor that have and are now being received on the subject will be compiled and presented together in a future issue of **The Numismatist**. While the article by Messrs. Birt and Wagner is certainly not the panacea of counterfeit detection, it is a start, and it is the hope of the staff of **The Numismatist** that this and future commentary will alert the collector to the great problems of counterfeit detection and the value of the Association's Certification Service (ANACS) and its importance to the hobby.

There are a number of similar calendars all from London, England. Therefore we believe that that ROSBACH is also London. The center circle of this piece has, PATENTED, other pieces marked PAT. APPL'D. FOR have date of 1901. As pieces after 1901 are marked PATENTED the maker of these calendars must have obtained his patent either in 1901 or 1902. The piece was called to our attention by Chriss Christiansen.

DELAWARE BICENTENNIAL MEDAL

Caesar Rodney's ride from Dover to Philadelphia on the night of July 1-2, 1776, has been honored on a medal issued by the Delaware American Revolution Bicentennial Commission as the state's official medal celebrating the American Independence Bicentennial.

A delegate to the 1776 Continental Congress, Rodney's tie-breaking vote gave the majority to a motion for independence.

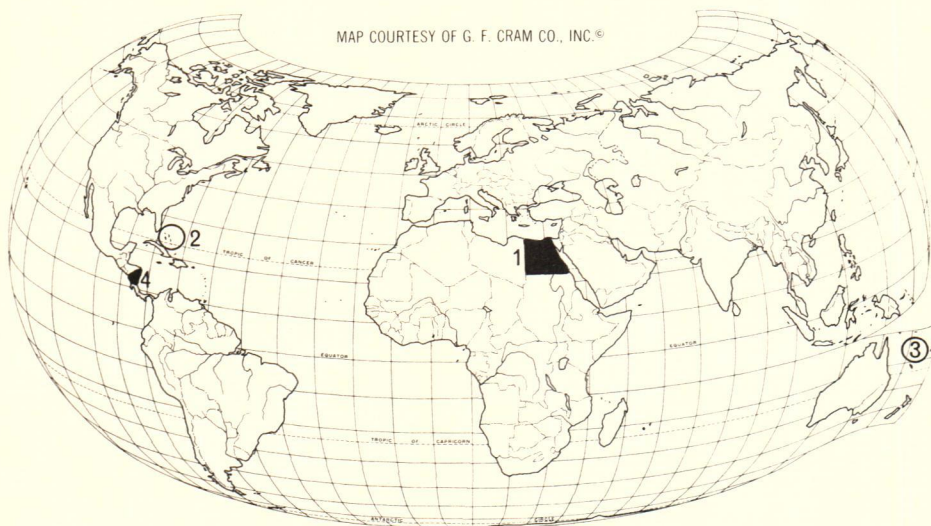

The medal bears the design of the Liberty Bell and Rodney on the obverse and the coat-of-arms from the state's seal grace the reverse. Designed by Raymond E. Martin and sculpted by Charles James Spinden, both of Wilmington, Delaware, it was struck by Medallic Art Co., Old Ridgebury Road, Danbury, Connecticut 06810. Medals were struck in five varieties: 2 1/2 inch, high relief silver and bronze along with coin-like issues of silver, bronze and gold-on-silver (vermeil). A special collectors set of three medals — large bronze and the smaller silver and gold vermeil varieties — is available from the medalist for \$52.00 including \$2 postage and handling.

On the first official day that medals were on sale by participating banks in Delaware, approximately 1,000 silver and 5,000 bronze medals of the 1 1/2 inch size were sold to alert collectors who had spotted an error in the date. A hyphen had been left out between the "1" and "2" in the date July 1-2, the correct date. Presently only the small bronze \$2.50 issue is available at cooperating Delaware banks.

Purchased error medals can be exchanged for correctly dated medals by including your name and return address and writing to Medallic Art Co., Box 771, Danbury, CT 06810.

Museum Directions

by Arthur M. Fitts III, Acting Curator

In recent months much has been said and written about the new addition to your growing ANA museum. As is well known, the contracts have been let for the construction which is expected to be completed by the fall meeting of the Board of Governors. The cases in which the coins and medals will be displayed have been completed, and the Association is committed to paying for them. However, it has been suggested that this is an excellent opportunity for clubs and individuals to show their support for this vital project by providing one or more of these display cases at \$500 each.

The distinction of being the first to generously provide such a case goes to Mr. Mark G. Moyer. Mr. Moyer, a Life Member of the ANA, Rory McFarland, and other employees of MGM Rare Coin Galleries, Inc., of Boulder, Colorado, of which Mr. Moyer is president, have set an example it is hoped many others will follow. A suitably inscribed name plate will be placed on this and all other display cases donated, expressing the gratitude of the ANA to those who gave so generously.

Gratitude is also expressed to the Franklin Mint — again — for the five large display cases which they sent for use in our present museum. These free-standing, double sided cases greatly expand our ability to properly present both large and small displays — up to twenty simultaneously — at eye level. They are also far more secure than the aluminum cases presently in use.

One of our long-standing regular donors is the Hutt commemoratives Ltd. firm of New Zealand, producers of philatelic-numismatic covers of the Pacific area. A recent shipment was comprised of the new \$1 and \$2 notes of the Commonwealth of Australia and the \$1 and \$2 Definitive Stamps. These two covers bear the date of the first day of issue — 24th April 1974 — and keep in tact the complete series of these handsome issues.

In a sense, the Clark, Gruber and Company \$10 gold piece recently received has "come home." Struck in 1860 in Denver, Colorado, it is of pure

gold and is slightly heavier than the regular United States issue of the same period, all of which gold was taken from the local Rocky Mountain area. Sitting as it does at the foot of Pikes Peak, your headquarters is an ideal place to view this coin and to con-

template the real Pikes Peak as compared to the design which was made up in Philadelphia exclusively from stories and imagination! We are most grateful to Mr. Leon Hendrickson, Winchester, Indiana, for this timely and most generous donation.

PNC ANNUAL REUNION DAY

Final plans have been completed for the PNC (Philatelic-Numismatic Combination) Annual Reunion Day. This will be held in conjunction with the ANA in Bal Harbour, Florida, on Sunday, August 18, 1974.

Maurice M. Gould, reunion chairman, announced that a breakfast is scheduled at 9:30 A.M.; meetings and speakers will follow.

The members of the educational panel are John Miles Baker, William Krieg and Eva Adams, with Gould acting as the master of ceremonies. The principal speaker will be Margo Russell of *Coin World*. During this event, the Man, Woman and Country of the Year presentations will be made.

SPAN, The Society of Philatelists and Numismatists, will be in charge of the all-day event.

The price of the breakfast tickets is \$5.00. They may be ordered directly from Ernie Hood, 2161-B Via Mariposa East, *Leisure World*, Laguna Hills, CA 92653.

Everyone attending the breakfast will receive at least one PNC cover worth \$5.00 or more absolutely free of charge.

On Saturday, August 17th, there will be a SPAN Director's Breakfast at 8:00 A.M. with President John Miles Baker presiding.

Numerous door prizes have been donated by various producers of the covers; they all will be given out during the Sunday get-together.

Further information may be obtained from Chairman Maurice M. Gould, Box 1500, Tustin, CA 92680.

THE
BCS
LONDON MEDAL

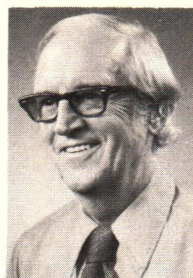

The Britannia Commemorative Society has recently released its forty-fifth commemorative medal, honoring London. The sculptor of this medal is James Berry. The obverse of the London Commemorative features the London Guildhall where the trial of the ill-fated Lady Jane Grey took place and the present scene of the annual Lord Mayor's banquet. The reverse shows the Arms of the City of London and the only known Roman medallion honoring London.

In accordance with the Society's standing rules, only one 45mm, .999 fine silver proof was struck for each BCS member.

Most of the 2204 members reside in England and the United States. All of the members in England are served by the BCS office in London, and their proofs are struck at John Pinches, (Medallists) Ltd. The members in North America are served by the BCS office in Drexel Hill, Pennsylvania, and their proofs are struck at The Franklin Mint.

Numismatic Vignettes

by Glenn B. Smedley

• Queen Victoria's husband, Albert, Prince Consort, died on December 14, 1861. Had he died a month earlier (and he was quite ill then) the course of the Civil War in America almost certainly would have been changed and, quite possibly, its outcome also.

On November 8 an incident took place at sea which so infuriated the people and government of England that that country came to the verge of a declaration of war against "the Northern States of America." On December 1 the Prince Consort composed a revised draft of a despatch to Washington, his last official action. Its "mild and conciliatory terms" were approved by the government and war was averted. (*Queen Victoria*, 1972, by Cecil Woodham - Smith)

• Un-news! "DiFonzo is well-known to Chicagoans through his Des Plaines-based silver-options companies, North American Investments Co. (NAICO) and North American Trading Co. (NATCO) . . . But NAICO now is in bankruptcy, listing assets of \$18,200 and debts of \$2,515,490. NATCO has closed its doors and has no telephone listing." (*Chicago Daily News*, May 20, 1974) So what else is new?

• Not long ago a used copy of Esar's *Comic Dictionary* caught my eye at a flea market. It has provided enough laughs to justify the nominal cost but some of the definitions are too close to truth to be funny. E.g.: duty — "A task we look forward to with distaste, postpone as long as possible, perform with reluctance, and brag about ever after."

• Want an unusual gift for a numismatic friend? With a Tampa, Fla. dateline, the following item was released by AP: "Donovan Kipplinger bought a \$250 toilet seat so that his father, a North Dakota grain farmer, can 'feel like a millionaire — for 15 minutes a day.' The father collects coins as a hobby."

"The novelty bathroom fixture is made of transparent plastic, inlaid with 13 crisp \$1 bills, half dollars, quarters and dimes."

Thanks to V. A. Nicoletti, who is rounding out 40 years of ANA membership this year, for this profound tidbit of numismatic news.

• According to UPI, a hijacker (helicopter) in New York City demanded that \$2 million in \$10 bills be delivered to him "in suitcases by a girl wearing a bikini." Neglecting the weight of the suitcases, the poor girl's load would have been 400 lbs. Small wonder he specified that she wear light clothing! P.S. He did NOT get the money.

• In writing these vignettes I sometimes feel like the politician who replied to his friend's question, "Is that all you have to say?" with "I guess so, I've already told you more than I know."

Editor's Note — The Numismatist staff is pleased to report that Glenn Smedley (Glenn S.), regular contributor to the journal, was recently honored with the sixth Numismatic Ambassador Award sponsored by Krause Publications. The plaque was presented to veteran collector-numismatist Smedley at the Central States Numismatic Society awards banquet in Detroit, Michigan.

DEPARTMENT OF THE TREASURY
BUREAU OF ENGRAVING AND PRINTING
WASHINGTON, D.C.

This print is a reproduction of the obverse of a proposed \$10 Silver Certificate, designated Series of 1897, originally intended for issuance in conjunction with the \$1, \$2, and \$5 notes of the 1896, or Educational, series of Silver Certificates.

The engraving of the vignette, entitled "Agriculture and Forestry," was executed by Charles Schlecht, based upon the design submitted by Walter Shirlaw, a Scottish-born artist, illustrator, and engraver. Mr. Shirlaw also had been commissioned to prepare the design for the \$5 note of the Educational series.

The \$10 notes were not printed since bills of that denomination were not specifically provided for in the Act of Congress of August 4, 1886 which authorized the 1896 series of notes.

APPROVAL GIVEN FOR FINAL MEDAL DESIGN

At deadline time the final plaster models for the production of the 1974 ANA Convention Medal were approved.

Shown here are reproductions of the completed models as sculpted by The Lincoln Mint's Roger Akers. The final designs are adaptations of original sketches prepared by George L. Osborn of New Orleans, as published in the June issue of *The Numismatist*.

A regular 1 1/2 inch bronze men's or the smaller 3/4 inch bronze ladies' badge along with an official program will be available at the convention for \$3.50 each. Three-piece, serially numbered medal sets encased in plexiglas holders and consisting of two 1 1/2 inch medals in bronze and silver and a bronze 3/4 inch medal will be also available at the convention for \$17.50 per set. Mail subscriptions should be directed to: Convention Registration, P. O. 426, North Miami, FL 33161.

From gardens to wharf

LADIES' DAY

"Green, greener, greenest!" is the best possible description for the elaborate gardens of tropical flora which will provide the backdrop for Ladies' Day luncheon festivities, Thursday, August 15th, during ANA convention week. Caladiums, orchids, gloxinia and variegated hibiscus mark the way to fern showers and fishtail palms which abound in the gardens of Patricia Murphy's Candlelight Inn.

Nestled along the beach in a small marina, Patricia Murphy's is a picture of tropical elegance offering the best in food and service as well as setting. To help create the atmosphere

for this afternoon of lunching in the tropics, women attending the event will have the opportunity to arrive or depart from the Inn by inland waterway transportation. The other leg of the sightseeing trip will be by land, allowing everyone to enjoy the double delight of viewing both Florida's land and sea-scape.

The day promises to be a special one for all attending . . . seven hours of southern hospitality. Honorary hostess for the occasion is Eva Adams, ANA Governor. T. T. Gore, Broward County chairman for the ANA convention, and Dolly Criswell, representing Florida, will also be on hand. Don't forget to make your reservations for this memorable bus-boat tour!

Meet Your ANA Office Staff

Pat Friesen

Out of her "office" in the hall one might hear a protest of a John Watson joke, a hooray when deadline is met, an argument for women's rights, an episode of Shadow, her fat, black cat . . . it's Ms. Pat!

Editorial Assistant of *The Numismatist* for only five months, Pat has mastered many of the important duties which are essential in putting a magazine together:

She edits manuscripts, (soon will be editor of the *Club Bulletin*), proofreads the entire editorial section of *The Numismatist*, pours and sweats over

the membership report, compiles the Classified Ads and the Calendar of Events (her favorite) . . . She sends tear sheets to the authors of articles, requests review copies of new books, types correspondence for Neil and John, attempts to pacify late receivers of *The Numismatist*, writes and rewrites news releases and articles, and writes and rewrites reminders to take care of all of the above (plus some)!

A native of Kansas, Pat graduated cum laude with a B.A. in English from Kansas State University in 1971. She continued her studies there for two years as a graduate student and an instructor in English composition.

Pat has resided in Colorado for over a year and finds the tranquility of the mountains a good reason to be here. She enjoys hiking, skiing, canoeing and most outdoor activities. However, she might also be found indoors sipping some wine, reading and writing poetry.

Most of all, Pat enjoys people — from the person who writes inane complaint letters, to a certain youngster who makes periodical visits to Headquarters for M & M's. She takes an immediate interest in their likes and dislikes and is as quick to argue a point.

Pat's astuteness for what is orderly and legible in the literary sense is a definite asset to the editorial staff. Her concern and love of human beings is an attribute to the ANA.

LESHER REFERENDUM DOLLARS

tips for
reading
&
research

Mystery still surrounds the Leshar Referendum Dollar issued by Joseph Leshar of Victor, Colorado, in 1900 and 1901. As early as 1917, efforts to trace all issues and varieties and to find actual records of mintage figures were fruitless. The search still continues today.

Mr. Leshar advocated free coinage of silver and believed that more silver dollars would be well accepted by the public. By calling them referendum dollars, he referred them to the public for acceptance or rejection.

They were designed specifically by shape and legend to distinguish them from government issue coins, however, this did not prevent government officials from confiscating some of the dies.

These octagon shaped numismatic pieces bearing Joseph Leshar's inscription and a replica of a Pikes Peak silver mine are highly prized by those fortunate collectors who own one.

For further reading concerning the various known varieties, the following books and articles are available on loan from the ANA library:

LIBRARY BOOK NEWS REVIEWS

The following books are available from the ANA library on a loan basis. People interested in purchasing these should write to the address listed with each book.

German States

DIE RITTER VON SCHULTHESS-TECHBERG'SCHE MÜNZ-U. MEDAILLEN-SAMMLUNG by Julius and Albert Erlenstein. 1974. 603 pp. Hard cover. Quarterman Publications, Inc., 5 South Union St., Lawrence, MA 01804. \$35.

Of major importance, this work encompasses in one volume a 1120-page reprint of the memorable Erbstein auction catalogues of 1868 and 1869 which present the incomparable Schulthess-Rechberg collection, including prices realized.

Even after a hundred years these massive catalogues continue to serve as the single most effective overall reference on talers, show-talers, guldens and related pieces of the Germanic States and their neighboring lands; over 7,000 items are listed.

The referencing, attribution and background data are a model of thorough, painstaking scholarship. Although they are not illustrated, the Erbstein catalogues have served as the basic point of departure for numerous, more modern references covering a portion of this vast area.

In the original this work has commanded auction prices in the middle three figures. Although in German, no American numismatist should find this a significant obstacle. A full and well-reasoned index and a new foreword by Randolph Zander augment an eminently usable reference work.

Colonial Silver

THE SILVER COINAGE OF MASSACHUSETTS by Sidney P. Noe. Reprint, 1973. 246 pp. Illus. Hard cover. Quarterman Publications, Inc., 5 S. Union St., Lawrence, MA 01804. \$20.00.

While not new, *The Silver Coinage of Massachusetts* by Sidney P. Noe is again available to all who are or would be interested in the Colonial period of our country. This timely and welcome reprint recently published by Quarterman Publications assembles, within the covers of one book, four works of Mr. Noe originally published separately by the American Numismatic Society between 1943 and 1947. Further enhancing this quality publication are the biographical sketch of Mr. Noe, extracts from Eric P. Newman's *The Secret of the Good Samaritan Shilling*, and a foreword by Mr. Newman. Welcome, too, is a price guide by Walter Breen; while outdated by the market advance in recent months, the guide is, nevertheless, a fine indicator of relative rarity and value.

Noe's works have stood the test of time and remain definitive. With the great interest in our Bicentennial, now more than ever collector interest in all Colonial coinages is keen. This book on the earliest of our coinages is eminently readable, well and profusely illustrated—and fascinating. It is highly recommended to all who would know more of the life and times of our Colonial forefathers. — Arthur M. Fitts III.

Collecting Primer

LET'S COLLECT COINS! by Ken Bressett. 1974. 64 pp. Illus. Paper cover. Western Publishing, Inc., 1220 Mound Ave., Racine, WI 53404. \$.75.

With interest in coin collecting at an all time high, the appearance of a new edition of Whitman's *Let's Collect Coins* is sure to appeal to thousands of people recently exposed to this

fascinating hobby.

Everything that a novice needs to know about collecting is fully explained in a concise and understandable manner. The pitfalls to be avoided are pointed out as well as all of the joys and benefits that can be derived from the hobby.

Special chapters cover all facts of collecting, including starting a collection, buying and selling coins, and their cleaning and preservation. Coin production and mint marks are fully explained and special varieties are also covered. A glossary of numismatic terms is also included.

The section of this book dealing with current coin prices will probably prove to be the most useful to many readers. Latest values are shown for all premium United States coins many of which may still be found in pocket change or household accumulations. It contains a great deal of information and is fully illustrated.

For Beginners

THE COIN COLLECTOR'S FACT BOOK by Walter J. Zimmerman. 1974. 135 pp. Illus. Hard cover. ARCO Publishing Company, Inc., 219 Park Avenue South, New York, NY 10003. \$5.95.

This is a basic, illustrated, numismatic text for beginners of all ages. It is simple and unusually well-written for its type, and makes no pretense at being what it is not — i.e. a catalogue or a directory.

The text covers the waterfront and consists of very short chapters with such varied headings as "Associations, Clubs and Collections Open to the Public," "Really Old Coins Still Available to Collectors," "Long Discontinued Denominations" and "Primitive, Commodity and Curious Money." Grading, displaying, etc., are briefly covered; U.S. coins are covered succinctly by denomination and major type. Some of the chapters, such as that on tokens, are informative and intriguing; others, such as that on paper money, are far too brief and hastily-contrived.

Most of the illustrations consist of

black and white photos, many of which could have benefited from more even and less-reflective lighting. The general glossary is quite good; there is no index, but the table of contents is thorough.

Recommended principally for beginning numismatists and for larger school and public libraries.

Notes & Queries

World Paper Money Catalog

A new definitive reference work, the *Standard Catalog of World Paper Money* authored by Albert Pick, will be marketed in an English language edition by Krause Publications Inc., through a cooperative publishing venture with Ernst Battenberg Verlag, publishers of Munich, West Germany.

The joint publication effort of a leading North American and leading European numismatic publishing house was termed a pioneering effort in American-European collaboration by the publishers. Battenberg publishes a series of "Welt-munzkatalog" (World Coin Catalog) references in annual editions.

The new catalog, a companion

volume to the popular *Standard Catalog of World Coins* published by Krause Publications, is planned for release early in 1975, according to publisher Chester L. Krause.

All notes in the large 8 1/2 by 10 3/4-inch format catalog are to be priced in US funds in two condition degrees, Fine-Very Fine and Crisp Uncirculated for modern notes, and Very Good and Very Fine for the earlier rarities. Valuations are to be supplied by a panel of professional dealers in world paper money coordinated by the Krause Publications staff, according to Clifford Mishler, senior editor, and Russ Rulau, coordinator. The extensively illustrated catalog is to include all major types of governmental notes

of the world since 1900 (earlier in many cases).

Pick, curator of the extensive paper money collections of the Bavarian Mortgage and Exchange Bank of Munich, is the author of *European Paper Money Since 1900*, *Paper Money Catalogue of the Americas*, *Papiergeld Sammeln* (Paper Money Collecting) and other works.

Price and ordering details for the new catalog will be available by late September.

California Educational Seminar in Third Year

Plans have been finalized for the third annual California Educational Seminar to be held September 13, 14 and 15, 1974, at the California State Polytechnical University (Kellogg West Center for Continuing Education in Pomona, California).

Among the instructors are specialists in the area of counterfeit detection — Virgil Hancock, Bellaire, Texas; John L. Hunter, Detroit, Michigan and Col. Robert Kriz, Merritt Island, Florida. William Holberton will again be working with students doing the specific gravity experiments in connection with counterfeit detection. The maximum number of students which can be accommodated in this class is thirty-five with the \$90 fee including eight meals and accommodations on the university campus. Commuters pay \$65. A \$25 deposit is required.

The one-day course in coin grading will be taught by Dr. Sol Taylor, an authority in the field of grading. The \$20 fee for this course includes lunch; \$10 is required as a deposit.

Maurice M. Gould, founder of the seminar, and William O. Wisslead, President of the California State Numismatic Association, are co-chairmen of the event. Assisting them and Dr. Ted Weissbuch, coordinator of the seminar, are committee members Charles Colver, Gordon Z. Greene and Walter Dittrich.

Participating organizations include the California State Numismatic

Association, the Organization of International Numismatics, the Council of International Numismatics and the Numismatic Association of Southern California. The Franklin Mint, Professional Numismatists Guild, Lewis Reagan Foundation and Paramount International Coin Corporation are sponsoring the event.

Students who complete the courses will receive a certificate; those finishing the three day seminar will also receive one unit of university credit.

Further information may be obtained by writing to William O. Wisslead, 2053 Cypress St., Santa Ana, California 92707.

Penny Drive Extended for Children

Mrs. Mary Brooks, Director of the Mint, announced the extension of Penny Redemption Month in response to numerous requests from children.

Children, and all others, turning in \$5.00 or more in pennies throughout the summer will be eligible to receive the Treasury Department's Special Citation.

Names to be cited for the award should be sent to Mrs. Mary Brooks, Director of the Mint, 55 Mint Street, San Francisco, California 94175.

Response to the Mint's drive to return the penny to circulation has been overwhelming. Banks and retail establishments throughout the nation are actively supporting the campaign and encouraging their customers to bring in their pennies for deposit or exchange for other currency or merchandise.

There is no shortage of a supply of pennies and the price of copper has retreated, closing at 99 cents a pound in mid-June. During the past fifteen years, the Mint has poured out 70 billion pennies and 30 billion of these are estimated to be in the "hidden" category. These are the pennies the Mint is asking citizens to put back to work in the market place.

One billion pennies returned to circulation will save the taxpayers \$10,-000,000.

ANA 4019

When death claimed Thomas F. Morris II at age 84, on March 14, the ANA lost one of its long-time members and numismatics lost an ardent and esteemed devotee. Tom was a serious collector and student of both numismatics and philately.

Tom was born in the New York City area on January 16, 1890, the second son of an artist and engraver who later became chief of the engraving division of the Bureau of Engraving and Printing. Among the prized material in his large collection were his father's detailed diary, many unique design sketches and engravings for paper money, stamps and other security paper, as well as other valuable memorabilia of the banknote business.

Based on this material and research in the field, Tom wrote numerous articles of historical value for such publications as *The Numismatist* and

The Essay-Proof Journal. His favorite subject was the silver certificates of 1896 which were produced while his father was in charge of engraving at the Bureau. His most ambitious undertaking was "The Life and Work of Thomas F. Morris, 1852-1898," published serially in *The E-P Journal* in 1966-68 and then as a 160-page book.

Tom applied for ANA membership on October 7, 1931, with George H. Blake and Moritz Wormser as proposers. He was a founder and member no. 4 of The Essay-Proof Society and one of its officers since its formation in October, 1943; a founder and charter member of the Society of Paper Money Collectors; and a 43-year member of the prestigious New York Numismatic Club (its president 1943-45).

Childless, his widow, Marjorie, survives him in their home in a suburb of New York City. — Glenn S.

SEE YOU AT BAL HARBOUR

We will have a bourse table at the 1974 A.N.A. Convention in Bal Harbour, Florida. Be sure to see us if you have choice foreign coins to sell.

If you have a large collection, to sell, which would require considerable time to do full justice to, why not call us now, so we can make a mutually agreeable appointment for either before, during, or after the A.N.A. Convention. Or if you prefer, we will of course travel to inspect worthwhile holdings. Call (404) 377-7075.

"WHAT OUR CONSIGNORS SAY"

When we sold the Armand Champa Collection at public sale, Mr. Champa, one of America's most prominent numismatists, was so pleased with the results that he did something unprecedented in the annals of numismatic auctions: completely unsolicited by us he placed large advertisements in "The Numismatist" and other leading publications to thank us for our service:

"Thank you Dave Bowers and Jim Ruddy for the excellent handling of my coins through you American Auction Association. I was very well pleased with your wonderful descriptions of my coins, especially the patterns. The prices realized for my coins NEARLY DOUBLED the offers I received from other dealers."

We think that the comment that our auction sale results NEARLY DOUBLED THE other offers received is especially significant.

Recently another consignor, Dr. Bernard Bressler, of the Duke University Medical Center (Durham, North Carolina), wrote to say:

"I am most appreciative of your sending me the check and the results from your last auction. I am MORE THAN SATISFIED with the proceeds. I want to congratulate you on the BEAUTIFUL CATALOGUE and the BEAUTIFUL RESULTS."

Recently we sold the fabulous collection of United States and world coins and paper money formed over a long period of years by MR. MATT ROTHERT, DISTINGUISHED PAST PRESIDENT OF THE AMERICAN NUMISMATIC ASSOCIATION. Mr. Rothert's accomplishments include receiving nearly every major numismatic award, including the American Numismatic Association's highest award, the Farran Zerbe Award, in 1973.

We consider it significant that Mr. Rothert chose us to auction his famous collection. Equally important, once the sale took place, Mr. Rothert expressed his pleasure with our cataloguing of his material and with the results obtained. "I want you to know that I was WELL PLEASED with my recent auction." Many, many price records were shattered. The Matt Rothert Collection sale will live forever in numismatic history.

And, many, many similar unsolicited comments are in our files. What we have done for others, we can do for you!

James F. Ruddy and Q. David Bowers tell you . . .

THE RESULTS SPEAK FOR THEMSELVES

Sell to us direct,
or let us auction your coins.
Either way, you make more
when you do business
with SUPERIOR.

SUPERIOR WILL PAY MORE FOR YOUR COIN COLLECTION THAN ANY OTHER DEALER

The serious looking people in the photographs above are collectors, investors, and even dealers who are attending an actual SUPERIOR STAMP & COIN COMPANY auction. They have a *proven history of paying record breaking prices for rare coins.*

4. WELL-ATTENDED AUCTIONS

We treat our public (both buyers and sellers) like royalty. Buyers come from every state in the union and many foreign countries. If necessary, we make hotel arrangements for them. We pleasantly, and patiently allow them to view every lot that interests them. Our auctions are a looked-forward to occasion

In 1973 a silver coin at just such an auction produced a record breaking price of \$110,000.00. A twenty dollar gold piece was bid up to \$60,000.00, for yet another record. How does this help you? Simple. The more we get ... the more you get ... and SUPERIOR auctions get more.

Coins consigned to, or purchased by SUPERIOR bring to the consignor, or seller prices far greater than when sold to other dealers. And there are good reasons why doing business with SUPERIOR means hundreds, or even thousands of more dollars in your pocket.

Such as:

1. TIMING

We advise you as to market trends. We have our thumb on the pulse beat of the economy. We know the most opportune moment to publicize and place your coins on the market. We don't conduct spur-of-the-moment auctions. They are well-planned, and well thought out to assure you of extra dollars by selling your coins during peak periods. *Our timed sales mean more dollars for you when you sell or consign your coins to SUPERIOR.*

2. EXPERT CATALOGING

Our catalogs are the envy of our profession. They have literally won awards, both for the professional manner in which they are written and for the graphic reproduction of almost 100% of the coins to be sold. They are printed on the best of papers. No expense is spared in catalog production. As a result, mail bidders can bid with confidence and assurity, based solely on our descriptions and photos. We will be glad to send prospective sellers samples of past catalogs. *These deluxe catalogs mean more dollars for you when you sell or consign your coins to SUPERIOR.*

3. LARGE AD BUDGETS

We have found that it pays to advertise. Months before an impending auction our full-page ad campaign is launched. Numismatic publications, financial publications, and all past buyers are alerted to the fact that SUPERIOR is conducting another auction. Mailing lists of Doctors, business and professional men, collectors and investors are purchased to augment over 10,000 proven names already on our books from past auctions. *Our large ad budget means more dollars for you when you sell or consign your coins to SUPERIOR.*

for old friends to meet and new acquaintances to be made. There is hardly ever an empty chair at a SUPERIOR auction. And they have all come for one express purpose ... to bid "top dollar" for your coins. *Our well-attended auctions mean more dollars for you when you sell or consign your coins to SUPERIOR.*

5. WE ARE PROFESSIONALS

You will immediately be instilled with a feeling of confidence and well-being when you sell or consign to SUPERIOR. We are professionals, and we know the coin business. Since rare coins are only available from collectors, and since it's a sellers market, SUPERIOR has to make you a "better offer". The last thing we want is for you to sell to a competitor. We won't let this happen. *The same professionalism enters the picture when it's time to sell, this means more dollars for you when you sell or consign your coins to SUPERIOR.*

6. PURCHASING POWER

When we purchase your collection you will receive *immediate payment*. If you elect to consign your coins you can receive an *immediate liberal advance*. Whatever your preference you will be doing business with knowledgeable people. We need your coins ... and we'll pay "top prices" for them.

When you consign your coins for auction you will receive a contract that fully protects you. Your coins will be placed in maximum security vaults and fully insured. You will receive an inventory list of each and every one of your coins. Our auction will be conducted in our spacious, comfortable 250 seat auditorium, right on our premises. A professional auctioneer will auction your coins. At SUPERIOR, under one roof, everything and everybody will be working for you. The higher prices realized at SUPERIOR may put your name in the "Red Book". No collection, be it king's or common man's is beyond our purchasing power ... and we use our own capital not borrowed money. *This purchasing power means more dollars for you when you sell or consign your coins to SUPERIOR.*

Bonner Did It! Ruby Did It! Harold Lloyd Did It! Claveria Did It! Gilhausen Did It! Pradeau Did It! Major Banks Do It!
WHY DON'T YOU DO IT!

The individuals above all elected to dispose of their collections through SUPERIOR. Obviously, after years of collecting, these knowledgeable, important and famous people, who could have sold or consigned their coins to any major dealer chose SUPERIOR. Why? Simple! Just read items 1 through 6 one more time. They add up to MORE DOLLARS FOR YOU WHEN TO SELL TO SUPERIOR.

The Record Speaks for itself!

MALAWI

~Celebrating
a Decade of
Independence~

Issues Silver Proof 10 Kwacha Commemorative Crown!

Official Government Issue Price~
\$22.50 each, plus handling

Malawi, formerly the British Protectorate of Nyasaland, will commemorate its Tenth Anniversary of Independence this year by issuing a magnificent sterling silver 39 mm Proof 10 Kwacha crown.

Malawi's breathtakingly beautiful scenery, huge wildlife game reserves and outstanding tourist facilities have already made the progressive young African nation a top vacation spot on the continent. Now, the nation's coinage takes a significant step forward with the addition of the new 10 Kwacha crown — largest denomination coin ever issued by Malawi — and its first sterling silver crown.

The obverse design on the new coin bears the effigy of Ngwazi Dr. H. Kamuzu Banda, Life President of Malawi. Dr. Banda was instrumental in helping to bring about the independence of Malawi. Under his leadership, Malawi has become one of the most stable of all emerging African nations.

The striking reverse design depicts a map of Malawi, the actual date of Independence and a large numeral 10 surrounded by a horse shoe shaped chain. Above the map is a design of the Malawi Coat of Arms, including the Malawi motto, "Unity and Freedom".

The 10 Kwacha crown will be superbly struck at the Royal Mint in London. With glistening designs on sparkling mirror surfaces, the new coin will be prized for its extreme beauty, as well as its obvious historic and intrinsic value. Certain to enhance your collection, the 1974 Proof silver 10 Kwacha crown will be a distinctive conversation piece and a potentially worthwhile investment as well.

Order your 1974 Proof silver 10 Kwacha crown today for just \$22.50 each, plus handling. Uncirculated Specimen 10 Kwacha crowns, also struck in sterling silver, are available at \$15.00 each, plus handling.

The number of Proof 10 Kwachas minted will exactly equal the number of orders received by the official deadline date, August 31. Orders for the Proof crowns are limited to five per person, while Specimen coins are available without restriction while supplies last.

The Mint exercises the utmost care in striking these proof coins to assure you the highest quality coins possible. This careful minting process takes time and so we ask that you please allow us 12 months after the ordering deadline before expecting delivery of your sets.

Official Ordering Deadline~ August 31

07

The acceptance of orders is contingent upon the Mint's ability to meet the demand. Should the number of orders exceed the ability of the Mint to produce these coins, it may be necessary to affect a reduction or cancellation of some orders received. In the event of such reduction or cancellation, a full refund will be made on any undelivered, sets. In no event shall Paramount be responsible for delays in delivery from causes beyond its control.

WHAT GIVES OUR HOBBY THE DISTINCTION, IS THE CHARACTER OF THE INDIVIDUALS WHO SERVE IT.

THE SOCIETY CERTIFIED PROFESSIONAL NUMISMATISTS is a recognized and honored group of professional coin dealers who are known and respected for their long years of dedicated services, with years of tested ability and honesty IN this field of professional commercial numismatics, who have served their hobby with DIGNITY AND HONOR, some for, 20-50 and 100 years of continuous service.

The term, professional coin dealer was applied during the birth of the first BOURSE in 1939 New York City A.N.A. Convention.

The first known and recognized professional coin dealers group was organized in 1947-1948, known as the AMERICAN COIN DEALERS ASSOCIATION, later followed by many other professional coin dealers groups, their purpose to set a standard for a Code of Ethics, rules and regulations to serve the public.

Today, the rapid growth of the professional coin dealer has grown into four figures, assuming a position a major importance in the hobby. We again hear today the age old cry and complaints about counterfits, grading and attribution, again the answer is not a simple one, the only answer is EXPERIENCE, one cannot buy it, books are important, for knowledge and history, and guidance.

This society is UNIQUE in this field of professional numismatics, it is a co-operative group without elected officers, without a constitution and without by-laws, A large group who became members in this society, were associated with other professional groups of coin dealers for many years, a few held high offices, served on numerous committees, and helped to write a Code of Ethics to serve the public.

When these individuals were elected in this society, they brought with them their experience, a high Code of Ethics, with Dignity and Honor, an obligation required by this society, also sworn and signed by a Notary Public.

Our members do not require any other form of certification of their experience, integrity to serve the public.

This society is guided and advised by a COUNCIL OF HONORED and DISTINGUISHED COLLECTORS, all have been awarded the highest honors from the A.N.A. for their distinguished services.

The seal of our Society and the members represent "DIGNITY AND HONOR", and is so recognized with respect in the field of national and international numismatics.

This notice is a guide for the collector seeking the services by CERTIFIED PROFESSIONAL NUMISMATISTS, if you plan to visit the ANA Convention in Miami, please make a note of the listed members who will be pleased to have you visit with them or at their place of business in the future.

Thank you.

CASH ADVANCE

THAT'S RIGHT!!!! We will advance a percentage of the fair retail value of your collection immediately upon receipt. Please send inventory first — do not send coins until you hear from us. We will then sell your collection at one of our forthcoming auction sales and you will receive your final settlement with 30 days after the sale. Our commission rates are always reasonable.

During the time that your coins are in our possession, they are stored in our protected and insured vaults. When you receive your advance check, if for any reason you are not satisfied with the amount of the check, just return it and your coins will be returned postpaid.

In many cases, our advance will be almost equal to other offers of outright purchase.

If you are not currently on our mailing list, just drop us a postcard with your full name and address and we will place your name on our catalog mailing list.

REMEMBER — It is not too late to have your collection included in our next outstanding auction sale.

OUR SALES ARE USUALLY HELD IN THE PARKER HOUSE

We are always in need of desirable numismatic material and will be happy to travel anywhere in the world to acquire it — either for auction or for outright purchase provided the value of the material warrants it.

NO COLLECTION IS TOO LARGE — We will furnish bank references upon request.

**A RARE OPPORTUNITY
TO PURCHASE
A RARE COLLECTION
OF UNPUBLISHED
GREEK IMPERIAL BRONZE COINS.**

The collection consist of 51 pieces, all attributed as to the Emperor or Emperess portrayed, and the Greek City on "Roman" Province in which it was struck. All the major reference books have been used, British Museum Catalogue, Grose, even the more recent Von Aulock Danish Syllogue.

These are coins that are almost 2000 years old, and are so rare, that they have never in all that time, been listed in a reference work, which works list every known variety of every ancient coin.

This would make an excellent addition to a museum, a scholars collection and yet, the coins are expensive. The entire collection cost only \$2500, which is less than \$50 per coin. Now the discovery of one genuine previously unknown coin in a series such as U.S. Colonials would cost at least the price of this entire collection, but the two can not be compared due to the number of people interested. But the astute observer who sees the huge number of people who are just getting acquainted with ancient coins, and the more recent start in the Greek Imperial Series, will see the investment potential of just putting this collection away for a few years (since that way they will remain unpublished).

So, museums, scholars, investors, or whomever, calls or sends for a list of the coins, and the first check for \$2500 is the new owner of 51 new coins.

Yes, you may still own the Official 1973 American Revolution Bicentennial Medallions from six great states if you rush your order today to The Lincoln Mint! Medallions are available from Alabama, California, Illinois, Louisiana, Oklahoma...

...plus South Dakota's historic "first" in medallion art, by the creator of Mt. Rushmore! Celebrated sculptor Gutzon Borglum made a plaster in 1935—specifically for striking as a medallion—of his magnificent Mt. Rushmore National Monument. This is the design he actually intended to be carved on the mountainside, with the four presidents—Washington, Jefferson, Lincoln and Theodore Roosevelt—shown from the waist up. Only their heads were ever completed.

Now South Dakota's State Bicentennial Commission has selected The Lincoln Mint to strike their Official 1973 Bicentennial Medallion directly from the rediscovered original plaster

by Gutzon Borglum!

All six pieces shown here feature the superbly detailed deep relief and lustrous "proof" finish for which The Lincoln Mint is famed. They are the first of four yearly series of Official Bicentennial Medallions. One side of each 1 1/2"-diameter medal will be based on a winning design from the Annual High School Scholarship Contest held through 1976.

Your purchase of any Official Bicentennial Medallion from us helps support that state's Bicentennial program—and entitles you to a free membership in the American Bicentennial Society. Own any medallion either in Solid Sterling Silver, individually numbered, for only \$12.50 (except South Dakota, \$15)... or in Solid Antique Bronze for only \$3.50 (except South Dakota, \$5).

Please don't delay. Order your Official 1973 Bicentennial Medallions right now!

RARE COINS
from . . . the Numismatic Gallery**

The Numismatic Gallery has purchased many new and rare coins in the past two months. Many of which are for the quality conscious collector. We have a reputation, at the Gallery, of having some of the rarest coins ever to come onto the numismatic market. We strive toward betterment of collections whether it be a small collector trying to upgrade his Lincoln Cent collection or be it a large museum who wants to complete their pattern collection (which we are in the process of doing), we are here to serve you. If you are interested in one coin that you have been seeking for many years or if you just want to collect rolls of silver dollars, we are just a collect phone call away.

**1794 U.S. SILVER DOLLAR
STRUCK IN COPPER**

**Judd-18
Unique!**

1794 Silver Dollar struck in copper. Unique and from the famous Judd collection of United States patterns. One of the rarest and sought after coins to ever appear on The Numismatic Market in many, many years. This coin is *The First Silver Dollar ever struck by the United States Government*. This coin was struck with the unfinished die—no stars on right or left borders. Being the only one struck—it was found unsatisfactory since there were no stars representing the states on the coin. After this was decided, the mint struck another 1794 silver dollar with stars on the right and left borders—and thus the mint officials are said to have given the first dollar (the rejected design) to President George Washington—which this being that coin. A once in a lifetime opportunity to acquire a piece of early americana. Since this coin being the first dollar struck by this country, we believe it to be an excellent investment for the future.

\$100,000.00

**1827 Quarter
Struck in Copper
2 OR 3 Known**

The Restrike. Judd-48. Browning 2. The regular obverse with the reverse B-2 of 1819, both being rusted slightly. Struck with a reeded edge. Extremely rare since there were only 2 known in 1890 at the famous Parmelee sale of which this one is taken from. These being struck circa 1858 by W. E. DuBois or one of the Eckfeldt sons who also sold restrikes and patterns around the Philadelphia area. There are only 8 original 1827 quarters minted, one of which just sold recently at public auction for \$40,000. There are also only about 13 restrikes known to exist and can be purchased for around \$28,000. This coin being offered is a full blazing mint red proof, STRUCK IN COPPER, and is one of only 2 or 3 known, and is twice as rare as any of the silver varieties. \$23,000.

**\$4.00 STELLA
Struck in Copper**

One of the most magnificent Stellas we have ever owned. The obverse and reverse dies were designed by Charles Barber with the head of LIBERTY facing left. The head of LIBERTY has the long beautiful flowing hair and wearing a coronet inscribed LIBERTY. The reverse consists of a large 5 pointed star inscribed ONE STELLA 400 CENTS incused. Struck in blazing red copper, there are only 2 or 3 known of this variety that have not been gilded. This coin is brilliant red in appearance and has a full proof surface. There have not been any on the market in this condition in many years and it will no doubt be many more until you see another of this quality. Rarity 7 (4-12 struck), but Rarity 8 in full blazing mint red copper \$15,000.

If you would like to be placed on our mailing list, please feel free to drop us a post card with your name and address.

ANNOUNCING A NATION-WIDE BUYING SERVICE

If you are seriously considering selling your collection, we need to buy it. During the past year, our retail sales have increased by over 70%. What does this mean? For us, it means the pleasure of serving you with our continued quality service, and lowest possible prices. For you, which is even more important, (because without you, we would not be here) it means the intrinsic satisfaction of securing another rare numismatic item.

However, in order to satisfy the ever growing numismatic fraternity, we are embarking upon a nation-wide buying service. You will notice that we have stated service. Why? Because it is this company's policy to treat you in the same fair and upright dealings when buying your coins as we use when selling ours. It is for these reasons that we feel our buying service will be something new and innovative for the entire numismatic fraternity.

Here is what our nation-wide buying service provides:

1. Instant cash (confidential, of course, if you wish).
2. Bank references available (contact Mr. Bill Whitsitt at Texas Bank & Trust, One Main Place, Dallas, Texas).
3. Call us collect at 214-748-4044 if you desire to sell a large collection, or you may ship your collection with invoice to Mike Follett Rare Coins, Plaza Level, One Main Place, Dallas, Texas, 75250. Within 24 to 48 hours, you will receive our generous offer by return mail.
Should you decide not to sell, we will return your coins immediately upon hearing from you. Of course, they will be fully insured and we will pay the postage. (During the past year, 82% of those who have sent us coins in this manner have sold their collection). Through this method you risk absolutely nothing.
4. We can be at your bank, home, or office anywhere in the USA within 24 hours of your call provided your collection warrants.

5. We will buy your entire collection, not just the choice material.
6. You will be selling to a coin retailer, not a middle man; therefore, you are assured for the highest possible price.
7. You will be selling to a company backed with 11 years' experience in buying and grading numismatic material. Your coins will be personally evaluated by Mr. Follett before purchase.
8. You will be negotiating with a company well received and respected throughout the numismatic world.

We are in particular need of the following numismatic items: All choice type material, early Bust dollars and Bust quarters in any grade, all key and semi-key coins with a wholesale value of \$10 or more, scarce and rare dates in seated quarters or halves, and all USA and foreign gold both rare and common. Without assuming an air or ostentation, this company has marketed twelve coins with a retail value of over \$5,000 each during the past year. As an indication of our high buy prices, we are paying above the 1973 *Red Book Catalogue* for the following items:

All BU Half Dimes From 1794-1837
All BU Dimes From 1796-1838
All BU Quarters From 1796-1838
All BU Halves From 1794-1840
All BU Bust Dollars 1794-1803
1834-1839 Quarter Eagle Gold BU
1854-S Quarter Eagle Gold BU

In closing, it is the goal and purpose of this numismatic enterprise to serve you — the Numismatist. For the thousands of you that have bought from us, we say thank you. For those of you who have sold to us in the past, we encourage you to continue. For those of you that we have yet to meet, we want to know you. Drop us a line and tell us what you have for sale. We feel that our nation-wide buying service will go further in meeting your individual needs than any other buying program offered today.

Thank you.

Do You Have Rare Coins To Sell?

Do you have rare coins to sell? Now might be the time to sell your duplicates or your entire collection. Choice and rare coins are currently bringing astronomical prices at public auction. Don't let this chance pass you by.

Paramount, a premier name in numismatics, is now accepting consignments of choice and rare coins for the 10th Annual Grand Central Sale to be held in New York City during November. Auctions in New York are well known for their large and active audiences. The highest prices in the country are often paid at New York auctions.

Our expert auction department has been chosen to conduct the auction at the 83rd American Numismatic Association convention in Bal Harbour, Florida in Mid-August. This is the ninth time Paramount has been selected by the ANA, an unprecedented record. In addition, we have recently conducted the N.A.S.C., Greater New York, Long Beach and similar prestigious sales throughout the country.

Selling at auction is easy. Here are 10 reasons why you should consider selling at a Paramount auction:

- 1 — We print a quality illustrated catalogue.
- 2 — We offer a Protective Auction Contract.
- 3 — Your coins are fully insured.
- 4 — All material is well represented.
- 5 — All coins are accurately described by our experienced Auction Department.
- 6 — We give special attention to rarities.
- 7 — We have a large, active mailing list.
- 8 — We offer reasonable commission rates.
- 9 — There are no hidden charges.
- 10 — You receive a prompt settlement in full.

The market is strong and the time is right to consign your rare coins for our November Grand Central sale. If you have a truly outstanding high grade collection of coins, or just a single rare piece, it will pay you to find out how easy it is to sell your coins at auction. Simply call David W. Akers, Vice-President, Marketing, at 513-836-2654, COLLECT, between 9 and 5, Monday through Friday. The deadline for accepting auction consignments for the 10th Annual Grand Central Sale is August 17th. It will cost you nothing to find out how uncomplicated it is to sell your rare coins and receive top dollar at a Paramount auction. Why not call today for full details?

MEXICO SILVER SPECIALS

Two months ago we began offering these Mexican type sets . . .

5 PESO TYPE SET

Includes Cuauhtemoc
Railroad
Hidalgo Grande
Hidalgo Chico
Ano de Hidalgo
Constitution
Carranza

When we initially offered these sets we sold out at \$59.50. When we were able to put more sets together we had to ask \$64.50 and sold out again. We have managed to put together 16 more sets which we can offer at \$69.50. When they are gone heaven only knows what price we'll have to ask if we want to again offer these sets so if you want one we would suggest you order now while you can get one of these beautiful BU silver crown type sets for only \$69.50.

10 PESO TYPE SET

Includes Constitution
Hidalgo
Madero-Hidalgo

These sets have followed the pattern of the 5 peso sets. From our initial price of only \$41.00 they have now risen to \$49.50 — a 20% increase in only two months. But this is only the beginning. We wouldn't be a bit surprised to see the 10 peso Constitution selling all by itself for \$75.00 in BU within the next few months. All three of these silver crowns are strict BU and are still underpriced at only \$49.50 per set.

25 PESO TYPE SET

Includes Olympic Type 1
Olympic Type 2
Olympic Type 3
Juarez

After our initial offering of these at \$37.50 we sold out and for 4 weeks were unable to obtain more at any price. The key coin in these sets and the one we couldn't find is, of course, the Type 3 Olympic. But we have finally found some so while they last we can again offer these sets at a fraction of what the Type 3 Olympic may be bringing all by itself this time next year. This desirable strict BU set is only \$43.00.

"THE DOT SERIES — CANADA 1947 COINS"

BY: HANS ZOELL

RARE 1947 • DOT SILVER DOLLAR

"THE DOT SERIES — 1947"
— HANS ZOELL —

As most collectors of Canadian decimal coinage know, the 1936 — 1¢, 10¢ and 25¢ pieces with a small dot, were officially issued in 1937 to cope with a possible shortage in case the new dies of King George VI were not ready in time.

Again, in 1948, a similar situation presented itself. When India became independent, the wording "ET IND: IMP:" had to be deleted, necessitating the making of new dies. However, this takes time and again it was necessary to use the old dies of 1947 to prevent a shortage. Most every collector is aware of the small maple leaf appearing after the 1947 date, on all denominations, to mark the 1948 strikings. Although, not officially recognized, are the 5¢, 25¢ and \$1. values with a small dot appearing after the date. Many so-called experts call these dots accidental or self-created. In a case such as this, one must use logic. There are no other dots known with a true dot in a logical position, other than the above mentioned — why then on the 1947 dates?

It is the author's opinion that the 1947 dots could have been used prior to placing the small maple leaf after the date.

NOT ALL COINS ARE WORTH THE PRICE

Most coin dealers and collectors you know want to sell you **genuine, unaltered** collectible coins. But all too often the coins are counterfeit or have been altered to appear to be a rare type. For example, many 1916 dimes have had "D" mintmarks added to increase their value by \$100 to \$500. The same alteration has been made on thousands of 1909-S VDB cents, 1892 and 1893-S dollars, and 1942 over 1 dimes. The targets of the counterfeiters and coin alterers are virtually unlimited.

In 1972 the ANA opened its certification service, which is totally devoted to one purpose: protecting you from buying bad coins. Protect yourself by having ANA Certification Service (ANACS) examine your "key" coins soon after you buy them. If they are good, the coins are worth more because you offer a photographic certificate of genuineness with them when you sell them. But if your coins are bad, you have ANA behind you as you request refund on your purchase.

Is ANACS always right? In 98.5% of the cases it is! And if you have **serious** reason to question ANACS's findings, the staff will be happy to re-examine your coin **at no cost to you!**

In a letter or on an ANACS "Request for Certification" form, give the following information:

Your name and address (plus ZIP)

Description of coin(s) to include country, date, denomination, metal, and other data (condition, etc.) which you wish to state.

The value of the coin, if genuine. (Our insurance company **must** have a stated value to determine its liability. This is for your protection as well as ours.)

Enclose a check or money order (payable to ANACS) to cover the costs of authentication, based on your stated value of the coin and on the return postal costs. Compute as follows:

(1) Coin Value	Service Fee
\$ 0 — \$150	\$6.00
151 — 300	9.00
301 — 500	12.00
Over \$500 ...	3% of stated value

If an ANA member, state your membership number and deduct 10% of the base fee.

(2) Postage and insurance for return. When you mail your coins to ANACS, add to your remittance the approximate amount of return postage as determined by your post office clerk. ANACS does not challenge return postage fees as long as they are reasonably accurate.

SIMPLE AS A-B-C! Prepare coin for shipment, provide data on you, your coins and their values, and enclose check for service fee (plus return postage and insurance). It's all explained above.

Take advantage of this highly competitive market. Frankly, I urgently need material to replenish my stock and fill want lists for clients. I am not seeking "bargains." My buying records prove I pay top prices for choice material. It will pay you to write me for a quotation whenever you are ready to sell — one piece or a collection.

SILVER BUY DIRECT & SAVE

For "solid" wealth many investors are turning to the "Letcher Eagle." It's ONE TROY OUNCE, PURE SILVER (.999). Each piece is larger than a dollar and certified as to weight and quality. Best of all, this form of silver can be purchased directly from The Letcher Mint at a cost only slightly higher than the New York spot price of silver on the day of purchase. For the first time, individuals as well as dealers can buy this convenient form of Pure Silver at reasonable bulk rates.

Price on a "per Troy Ounce" weight basis in bags, F.O.B. Mint at Lancaster, California:

1000 to 9999	at 75c over N.Y. spot
10,000 to 50,000	at 45c over N.Y. spot
over 50,000	at 27c over N.Y. spot

Shipment generally will be made in less than a week's time via Air Freight, Rail Express or armored car service.

Over 1,000 different items for the value-oriented collector. Emphasis on 20th century issues of numismatic significance, mostly within a \$5 to \$20 price range. Plus a superior selection of fine medallic works and foreign paper money. Neither meaningless stuff, nor overpriced rarities. THE AMERICAN BICENTENNIAL MEDALLION

The story of America appears on this significant Bicentennial Medal. A magnificent Liberty carries the torch and laurel wreath on the obverse. In the background is a cannon, reminiscent of the heroic struggle for freedom, as well as Independence Hall, indicative of the Constitution. A plowman takes us back to the struggle of the pioneers, while smoke rising from a factory signifies our present industrial might. The reverse features the American Eagle, poised for flight, peaceful yet ever watchful, and the Liberty Bell, reproduced in minute detail.

A GREAT COLLECTION U. S. PROOF SETS From 1858 To 1915

This Outstanding Collection — Formed by Mr. Edward T. Schumm, Oak Park, Illinois, a Most Discriminating Collector, whose continuous efforts and searching for many Years enabled him to assemble the Finest Proof Sets possible to obtain. Only lacking is the 1864-L Cent and the 1884, 1885 Trade Dollars. Each Set is Housed in a Kurtzeborn DeLuxe Museum Plastic Holder. With the majority of Proof coins that were struck, being only a few Hundred, the number of Sets of similar Quality in existence is exceedingly small. Today's Collector would be confronted with an almost impossible task to assemble many of the Fifty-eight proof sets — what with continual rising prices and the Big demand for Top Quality coins. We offer this only as a Unit — priced at \$198,500.00
